Parker Duofold Point

Duofold Pens,
even at \$5, are

FOR LIFE**

(the same as at \$7 and \$10)

However beautiful a pen may be, it is only as good as its point. That is why Parker Duofold has become Canada's leading pen. Ink capacity, colour, style, smart streamlined shape—all these it has and more. Without the Duofold point they would mean but little.

Step to the nearest pen counter and test this wonder point for yourself. Feel the thrill of its golden glide. See how the ink flow instantly obeys the slightest touch of point to paper—yielding without pressure to every nervous movement of the hand. Then you will understand the urge to write that comes with

**PARKER
DUOFOLD
PEN**

Parker's exclusive "Pressureless Touch," smooth and unhindered as thought itself.

For every Duofold point must pass a series of exhaustive tests before ever it reaches your dealer's pen counter. Parker's vast experience and skill alone can reach this pressureless standard, alone can make this sensitive, responsive and subtly fashioned nib from the genuine 14 kar. Canadian gold, alone can achieve the polished jewel-like smoothness of its iridium tip.

Small wonder, then, that the smart, fashionably coloured streamlined Duofold model, that sets so low and unobtrusively in pocket or handbag, and that has 17.4% more ink capacity than average has become Canada's favourite pen from Coast to Coast.
